## Introduction

This is the list of qualifications that have been approved by the Department for Education (DfE) for teaching to 16 to 19 year olds from September 2015. These qualifications will be reported in the **technical certificate** category of the 2017 16-19 performance tables (to be published in early 2018). They will be reported alongside qualifications such as A Levels and other vocational qualifications. An update to this list will be published in February 2015.

**Technical certificates** are rigorous intermediate (level 2) technical qualifications recognised by employers. They are for students aged 16 plus that wish to specialise in a specific industry or prepare for a particular job. They cover jobs and careers where employers recruit people with a specific level 2 qualification or where a level 2 qualification is needed before students can progress to a level 3 qualification. Technical certificates give students an opportunity to develop specialist knowledge and skills to help them get an apprenticeship or job, or progress to a higher level qualification, such as a tech level. In some cases, a technical certificate qualification is a 'licence to practise' or can exempt someone holding the qualification from a professional exam. Technical certificates are recognised by trade or professional bodies or at least five employers. Alternatively, the qualification may be accepted by a national licensed professional registration scheme.

The list contains the qualification number and title and links to information about its purpose and value for further study, jobs or careers it could lead to and letters of support from employers and/or employer bodies. This will help students and parents decide which vocational qualifications best meet their learning needs and aspirations.

These links were correct on 10 December 2014. DfE cannot be held responsible for any omissions after this date. This is because the information is held on the website of the examination body offering the qualification. DfE will ensure that any omissions reported to them are corrected wherever possible. Please report any omissions to:

Please note: Schools and colleges may offer qualifications that are not included in the performance tables, if approved for teaching to 16-19 year olds where this is the best interests of each of their individual students.

## Headline performance measures for 16-19 year olds

In 2013, DfE announced significant reforms to school and college performance tables. These affect the reporting of exam results taken in the summer of 2016 onwards. The new headline measures for school and college performance will be:

- progress;
- attainment;
- progress in English and maths (for students without a GCSE pass at A\*-C in these subjects);
- retention; and
- destination.

From 2016, the progress measure in 16-19 performance tables will report the following categories of qualification: level 3 academic qualifications (such as A levels) and level 3 tech levels and applied general qualifications. From 2017, the measures will also report technical certificates. This may help students and parents decide which courses to take and then select a school or college in their area which offers this course.
